

# Knowledge User/Knowledge Translation Committee Co-Chair

**The Can-SOLVE CKD Network seeks to fill the senior leadership volunteer position of Knowledge User/Knowledge Translation Committee Co-Chair for the term January 2020-March 2022 (with the possibility of extension).**

The Co-Chair role will support Can-SOLVE CKD research projects and a broad range of activities across the network aimed at accelerating the translation of knowledge about chronic kidney disease into clinical research, evidence-based practice and policy. (See Committee [Terms of Reference](#) for more information)

The Co-Chair will provide leadership, strategic guidance, and support to the Can-SOLVE CKD leadership team, researchers, patient partners, and stakeholders to advance the network's knowledge translation goals and objectives. (See [Knowledge Translation Framework](#) for more information)

The existing Knowledge User/Knowledge Translation Committee has been led by an experienced Co-Chair and Knowledge Translation Broker since 2016. The committee's members have unique knowledge translation expertise in adult and pediatric nephrology as well as diverse skills and experience derived from their roles as patient partners, policy-makers, and service providers. Many of the committee's members are connected to local, regional, and national kidney health organizations in their personal and/or professional capacities.

The Knowledge User/Knowledge Translation Committee meets via teleconference approximately once per quarter with the possibility of in-person meetings at the discretion of the Co-Chairs. The Co-Chairs report to the Can-SOLVE CKD Steering Committee.

Prospective candidates are encouraged to contact Heather Harris ([hharris@cansolveckd.ca](mailto:hharris@cansolveckd.ca)) outlining their interest in the role and any relevant skills and experience. **Submissions will be accepted until Wednesday, December 18.**
